**Pulse Crop Genetic Improvement Network**

## Objectives:

1: Communication and Delivery

2: Phenotyping

3: Performance

4: Reverse genetics

5: Genetic mapping in crop legumes

6: Genetics of Seed Quality Traits

## Objectives:

### 1: Communication and Delivery

a) UK breeders Research base

b) PCGIN SASA & EU

c) UK & international research databases

d) PCGIN web-site

e) Interaction days - all groups

f) Associated projects

## Objectives:

### 1: Communication and Delivery

a) UK breeders Research base

- Establish & promote
- Feedback

- Database of breeders, end-users, other *interested* parties: stakeholders

[PCGIN administrator: [mary.wade@bbsrc.ac.uk](mailto:mary.wade@bbsrc.ac.uk)]

- Input & feedback
- Steering

## Objectives:

# 1: Communication and Delivery

## c) UK & international research databases

### Extant databases:

- PGRO, BEPA & NIAB
- AEP (UK) & EU TTP
- Stakeholder & end-users

### Bioinformaticist (JIC):

- UK links
- Europe & Beyond

### What format ?

- Species
- Country
- Research projects

## Objectives:

# 1: Communication and Delivery

d) PCGIN web-site

[www.pcgin.org](http://www.pcgin.org):

- Project information
- Meetings & reports
- Links to EU projects
- Links to other GINs
- Publications
- Updates and feedback

## Objectives:

# 1: Communication and Delivery

e) Interaction days - all groups

Planning meeting, June 2005 (PGRO)  
PGRO, NIAB, Unilever, Cebeco, July 2005 (JIC)  
PCGIN plots of exotic germplasm (*Objective 2*)

- Pulse Crop Genetic Improvement Network** ↗

## Objectives:

# 1: Communication and Delivery

## e) Other Interaction

PGRO members' day 2005 } Posters, hand-outs & plant display  
 Cereals 2005 }  
 Trade Day, July 2005 (PGRO)  
 Article - PGRO journal  
 Article - Grain Legumes  
 Plant display & a demonstration TODAY
